<b>Date:</b>	March 30, 2004

Where an agency or regulation is exempt in part or in whole from the requirements of the Administrative Process Act (§ 2.2-4000 *et seq.* of the *Code of Virginia*) (APA), the agency may provide information pertaining to the action to be included on the Regulatory Town Hall. The agency must still comply the requirements of the Virginia Register Act (§ 2.2-4100 *et seq.* of the *Code of Virginia*) and file with the Registrar and publish their regulations in a style and format conforming with the *Virginia Register Form, Style and Procedure Manual*. The agency must also comply with Executive Order Fifty-Eight (99) which requires an assessment of the regulation's impact on the institution of the family and family stability.

This agency background document may be used for actions exempt pursuant to § 2.2-4006 A 1 through 4 at the final stage. Note that agency actions exempt pursuant to § 2.2-4006 A 1 through 4 of the APA do not require filing with the Registrar at the proposed stage.

### Summary

*Please provide a brief summary of the regulation, amendments to an existing regulation, or the regulation being repealed. There is no need to state each provision or amendment.*

The regulation amendments update state regulations that incorporate by reference certain federal regulations to reflect the Code of Federal Regulations as published on July 1, 2003. Below is a list of the new standards in the federal regulations that are being incorporated into the regulations by reference.

1. 40 CFR Part 60 - Standards of performance for new stationary sources - No new NSPS are being incorporated; however, the date of the Code of Federal Regulations book being incorporated by reference is being updated to the latest version. Some title information is being updated, as well.

2. 40 CFR Part 61 - National emissions standards for hazardous air pollutants - No new NESHAP are being incorporated; however, the date of the Code of Federal Regulations book being incorporated by reference is being updated to the latest version.

In addition, three new sections entitled "authority to implement and enforce standards as authorized by EPA" have been added to each article: 9 VAC 5-50-405, 9 VAC 5-60-65, and 9 VAC 5-60-95. Each lists a series of documents that identify the Commonwealth's delegated authority to implement and enforce the standards designated in each article on behalf of EPA. These sections has been added in response to ongoing internal and external interest regarding specific delegated authorities. These sections have been added for informational purposes only, and the listed documents are not enforceable in any way other than by EPA to the state.

## Statement of Final Agency Action

*Please provide a statement of the final action taken by the agency, including the date the action was taken, the name of the agency taking the action, and the title of the regulation.*

On March 29, 2004, the State Air Pollution Control Board adopted final amendments to regulations entitled "Regulations for the Control and Abatement of Air Pollution," specifically federal regulations incorporated by reference (9 VAC 5 Chapter 50, Article 5 and 9 VAC 5 Chapter 60, Articles 1 and 2). The regulation amendments are to be effective on June 1, 2004.

The regulation amendments are exempt from the state administrative procedures for adoption of regulations contained in Article 2 of the Administrative Process Act by the provisions of § 2.2-4006 A 4 c of the Administrative Process Act because they are necessary to meet the requirements of the federal Clean Air Act and do not differ materially from the pertinent U.S. Environmental Protection Agency (EPA) regulations.

In adopting these amendments, the board affirmed that it will receive, consider and respond to petitions by any person at any time with respect to reconsideration or revision, as provided in § 2.2-4006 B of the Administrative Process Act.

## Additional Information

*Please indicate that the text of the regulation, the reporting forms the agency intends to incorporate or use in administering the proposed regulation, a copy of any documents to be incorporated by reference are attached.*

*Please state that the Office of the Attorney General (OAG) has certified that the agency has the statutory authority to promulgate the regulation and that it comports with applicable state and/or federal law.*

*If the exemption claimed falls under § 2.2-4006 A 4 c of the APA please include the federal law or regulations being relied upon for the final agency action.*

The text of the regulation, along with the documents to be incorporated by reference, is attached and a copy of the federal regulations being relied upon for the final agency action is available upon request.

Section 10.1-1308 of the Virginia Air Pollution Control Law (Title 10.1, Chapter 13 of the Code of Virginia) authorizes the State Air Pollution Control Board to promulgate regulations abating, controlling and prohibiting air pollution in order to protect public health and welfare. Letters providing written assurance from the Office of the Attorney General that (i) the board has statutory authority to promulgate the final regulation amendments and (ii) the amendments qualify as an exemption under § 2.2-4006 A 4 c of the Administrative Process Act are available upon request.

## Family Impact Statement

*Please provide an analysis of the impact of the regulatory action on the institution of the family and family stability including to what extent the regulatory action will: 1) strengthen or erode the authority and rights of parents in the education, nurturing, and supervision of their children; 2) encourage or discourage economic self-sufficiency, self-pride, and the assumption of responsibility for oneself, one's spouse, and one's children and/or elderly parents; 3) strengthen or erode the marital commitment; 4) increase or decrease disposable family income.*

It is not anticipated that these regulation amendments will have a direct impact on families. However, there will be positive indirect impacts in that the regulation amendments will ensure that the Commonwealth's air pollution control regulations will function as effectively as possible, thus contributing to reductions in related health and welfare problems.
